

Dear colleagues,

As every year, this autumn, at the Institute of Clinical Neurophysiology in Ljubljana, we are organizing a Clinical Neurophysiological Symposium with a Dr. Janez Faganel memorial lecture. This year's meeting will be dedicated to inflammatory neuropathies. This is an important group of neurological diseases, which includes both acute conditions (i.e., Guillain-Barré syndrome) and various chronic forms of mostly demyelinating polyneuropathies. Their diagnosis is not easy, but most of them can now be effectively treated.

The high professional level of the meeting will be ensured primarily by four top lecturers:

Pieter A. van Doorn, Erasmus University Medical Center, Rotterdam, the Netherlands (42nd Dr. Janez Faganel Memorial Lecture)

Robert D.M. Hadden, King's College Hospital, London, UK

Eduardo Nobile-Orazio, IRCCS Humanitas Research Hospital, Milan, Italy

Claudia Sommer, University Hospital Würzburg, Germany

The focus of the meeting will be on discussions, with 10 minutes after each 20-minute lecture, and an additional hour at the end of the meeting. The meeting will also be a good opportunity to socialize and network. The meeting will take place on September 25, 2026, at Cankarjev dom in Ljubljana, Slovenia.

The meeting program is available at the following web address:

<https://tinyurl.com/Immune-Med-Polyneuropathies>

Fees:

Category	Until 31 August 2026	From 1 September 2026
Regular	150 EUR	180 EUR
Residents & Technicians	80 EUR	100 EUR

You can register for the meeting at the following web address:

<https://cankarjevdom.eventsair.com/2026-cns/registration>

We look forward to meeting you!

Prof. Simon Podnar, MD

Meeting Chair
